## ONLINE SPECIAL FEATURES

### LEAGUE MANAGER

This game mode, also well known as "offline", is based on the following concept: you have to create your line up according to the scheduled movements. You have to team up your line up and set 2 round movements for each card (one in case it's your turn and one in case it's your opponent to begin). With this choice, the movements will be determined and compared by the system at the end of the day declaring the winner of that match. There will be a new league every week and if you are in the top player list you will be allowed to move to the next level or fall down to the lower one.

Important: in some weeks there could be some line-up restrictions, so you won't always be able to use all of your cards in this game mode.

You'll need to change your game strategy and update your line-up if you don't want to lose the next match!

### TOURNAMENTS

The tournament section is the most important area, as the points you win here count towards your ranking.

The points you can win depend upon the number of participants in each tournament. The winner will also receive EXTRA COINS. So don't be afraid to take a few risks and show everyone that you're the best in ADRENALYN XL™!

### TOURNAMENT POINTS TABLE

The points table is as follows:

Numero di partecipanti	Punti in base alla posizione raggiunta							
	1°	2°	3°	4°	5°	6°	7°	8°
1	0	0	0	0	0	0	0	0

## BONUS CARDS:

you can use these cards to increase the scores of your player cards during a challenge. You can pick them during a game to strengthen the value of your card, but you have to use them carefully since you will only be allowed to use three bonus card during the same match.

## LUCKY CARDS:

these cards are similar to the bonus cards, but the effective value can vary depending on the pack you've activated. In a MEDIUM RISK pack, you'll probably find a really positive BONUS. The LUCKY CARDS, as the name suggests, are random, giving the game a bit of uncertainty but also making it much more exciting...

## TRAINING CARD:

you can increase the value of your basic cards using this special feature card. With this card, you can put a basic player card in the training room for 1 h. At the end of that time, that player card will receive a permanent extra score. During the training period, your card can not be used in any challenge. Training cards can be used to increase the defensive and attack values of your player cards by a maximum of 2 points for attack value and 7 points for defensive value.

### PENALTY CARD:

this card can be used during a match as the last chance to save the point. If your opponent wins a card comparison, you can decide to play the penalty card, committing a foul. Then your opponent has to kick a penalty – if you save it, the point is saved; otherwise your opponent wins the point and the match will continue. Important: the player card who committed the foul can't be used in the next challenge.

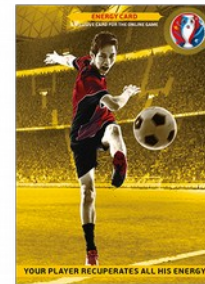

### STADIUM CARD:

in real football matches, home advantage is one of the most important factors for a team to win. You can use the STADIUM CARD in a similar way. These 24 exclusive digital cards will add points (+5 defense value, +2 midfield value, +1 attack value) to each player associated to the National team of the stadium that you have in your line-up. Use the power of your stadium!

### ENERGY CARD:

Just as real-life players get tired and need time to recover between matches, the same happens in Adrenalyn XL™ Online Challenge. After 10 consecutive matches, a player card gets 'tired' and its scores go down. To recover the full value of the card, you have to wait until 11.59pm. If you don't want to wait, you can use the energy card in the hospital building to recover your player's full value immediately. Rest or keep on playing? Take your pick!

### SAGA MODE

The SAGA Adrenalyn XL™ is one of the most interesting sections of the online game. You can access it through the airport building. Test your skills by challenging Adrenalyn XL™ National teams across the EURO 2016™ France venues. Complete the SAGA, be the best Adrenalyn XL™ player!
